

Sacred Heart School has received approval by the Indiana Department of Education to participate in the new statewide voucher program that has recently been signed into law. Through the School Scholarship Act (HEA 1003), area families may qualify for tuition assistance. This is available for students entering grades 2-12 who have attended an Indiana public school for at least two semesters.

In addition, Sacred Heart is collaborating with CHOICE Charitable Trust to provide scholarships to qualifying families. These funds are available to students entering Kindergarten and those transferring from a public or private school who meet financial requirements.

For more information on these programs you may contact:
